## Officers of Minerva Chapter O. E. S. Installed For 1926

On Thursday evening of last week a public installation of the officers of Minerva Chapter, O. E. S. took place in their lodge room, Coleman. After installation proceedings were conducted by the following installing officer, Thos. P. Newman of Pincher Creek, assisted by Mrs. R. Evans as Grand Marshal, Mrs. A. W. H. McLeod Grand Secretary, and Mrs. A. Beveridge Grand Chaplain, a delightful lunch was served by the members of the order.

The officers for the year are:  
Worthy Matron—Mrs. Elizabeth Roughed.  
Worthy Patron—Mr. W. N. Garner.

Associate Matron—Mrs. Mary Emmerson.  
Secretary—Mr. Roht. Evans.  
Treasurer—Mrs. Catherine Dickson.

Conductress—Mrs. Sadie McDonald.  
Associate Conductress—Mrs. Janet Cooke.

Five Star Points—Adah, Mrs. M. Emmerson; Ruth, Mrs. Janet Jackson; Esther, Mrs. Lillian Rippon; Martha, Mrs. Elizabeth Shott; Electa, Mrs. Mary Pattinson.  
Chaplain—Mrs. Margaret Hyslop.  
Marshal—Mrs. Mary Dewar.  
Warder—Mrs. Catherine Garner.  
Organist—Mrs. Susan Powell.  
Sentinel—Mr. Harry Pearson.

## A Real Picture With a Punch.

Gunner Kason's thrilling dog team race in the Yukon last winter carrying diphtheria anti-toxin to the stricken inhabitants of Nome is the basis of one of the most spectacular pictures ever screened and will be shown at the Palace Theatre at an early date under the title of "Bait to the Race to Nome." This thrilling story of Kason and his team of huskies over hundreds of miles of Yukon snowfields in mid-winter packs a real punch. Watch The Journal for further particulars and date of showing.

## Off To The Bonspels

Taking advantage of the good weather, the district bonspels are to be pulled off within the next few days. At Coleman the Crow's Nest Curling Association will open the annual spiel, but this district will not be quite as strongly represented as usual. In this event, only one skip, from Cranbrook, is indicating his intention of taking a rink there. At Roseland next week there is also being held the annual West Kootenay bonspiel, in connection with the B. C. Curling Association. For the first time in many years Cranbrook will have representation in this event, a rink to be skipped by W. F. Cameron being lined up to leave on Sunday for the golden shore. Jno. Martin will be third man, Jack Taylor second, and Dr. MacKinnon lead. At this event there will be a big representation from Kimberley, about six rinks in all being expected to make the trip over. With such a showing as this East Kootenay ought to have some chance of being represented in the jewelry—Kimberley Press.

## Government Sustained

On a division in the House of Commons at midnight on Thursday of last week, the Liberal government was sustained by a majority of three. The vote on the Meighen non-confidence amendment was: For 124; against 128.

## Why All The Noise?

In the American rubber industry, which makes such huge profits from manufactured rubber, justified in complaining of the profits made by the planters of the raw material, who are the people who have taken all the risk, all the trouble, and who have in fine awarded to the American industry by their enterprise progress? A little reflection on the factors essential to its enormous matter will force one to conclude that the agitation being carried on in the United States is neither logical nor just, for it leaves out of consideration the essential basis of the situation rendered possible by the British planter, thanks to whom the United States manufacturer is drawing his huge profits today.—La Presse.

## The Parent-Teachers' Associations

Newspapers all over Canada are giving liberal space to the activities of Parent-Teachers' Associations. This is a healthy sign so far as schools and education are concerned. In the past there has been too great a gulf between parents, the teachers, and the pupils. The Parent-Teachers' Associations foster the mingling of the three groups, making them feel that their problems are in common. The one great problem before them is the making of better citizens—not alone for the pupils, but for the parents and teachers as well. A proper attitude on the part of the child is an inspiration, or ought to be an inspiration, for the adult. The rule works both ways. Man makes the child and the child makes the man. The time seems opportune for the formation of such an organization in Coleman.

## KEEPIN' AT IT.

If your town's not on the map,  
Keep a boostin';  
When all others knock and rap,  
You keep boostin';  
Townsmen built by folks who nap,  
But by makin' good things hap;  
What if it does take a scrap?  
Keep a boostin'.  
When it seems it can't be done,  
Keep a fightin';  
Once a struggle has begun,  
Keep on fightin';  
When the foe gets on the run,  
Then the battle's dangin' won;  
Quitlin'—heck, that ain't no fun;  
Keep a fightin'.  
If the other fellow crys,  
You keep smilin';  
Give him help—and sympathize,  
Get him smilin';  
If you would be happy, wise,  
Let me urge, insist, advise,  
Try this dailly exercise;  
Keep a smilin'.

## IN THE DISTRICT COURT OF THE DISTRICT OF MACLEOD.

IN THE MATTER of the Estate of Joseph Burns, late of Coleman, in the Province of Alberta, Muer, deceased.

NOTICE is hereby given that all persons having claims upon the Estate of the above named Joseph Burns, who died on the 21st day of December, A.D. 1925, are required to file with Mary Ann Burns, of Coleman, in the Province of Alberta, on or before the first day of March, A.D. 1926, a full statement, duly verified, of their claims, or of any security held by them, and after that date the Executor will distribute the assets of the deceased amongst the parties entitled thereto, having regard only to the claims of which notice has been so filed or of which claims have been brought to her knowledge.

DATED at Coleman, in the Province of Alberta, this 14th day of January, A.D. 1926.

OSTLUND & BROWN,  
22 St. 22 St.  
Solicitors for the Executor.

## LOCAL, PERSONAL AND GENERAL NEWS

The Journal recently received one of the largest printing orders ever placed in The Pass, when Mr. W. Antrobus, proprietor of the Dependable Dairy, placed with us an order for over a quarter of a million milk tickets.

Blairmore Bruins play in Coleman on Friday night of this week. This should be one of the best games of the season, as the Bruins were only beaten by one goal in their game at Blairmore on Tuesday night, and playing on their home ice Friday, ought to be enough to equalize the odd goal.

The new auto license plates stand out prominently, not that we like the color. Be sure to get yours early as the police are already on the look out for those without their 1926 auto license plates.

Some men do and some men don't like to be wakened in the middle of the night for a drink.

The Trail Rangers journeyed to Bellevue on Saturday morning in their car, 'deluxe' and played a strenuous game of hockey with the Trail Ranger team of that town. It was a great game. All the "Bantams" played up to scratch and when the last bell sounded—after playing extra time—the score was 2 all.

Last December was the mildest since records were first taken in Alberta forty years ago.

## Pinch the Bairn

A Scotsman took his wife and their three months' old baby to a theatre one evening. During the first act the child commenced to scream so lustily that an attendant appeared and said if they could not keep the baby quiet they would have to leave, and their money would, of course, be returned to them. The child went to sleep thereafter, and all was peace and quietness until half way through the last act, when Jack began to be fidgety of the play. He turned to his wife and whispered, "Maggie, pinch the bairn."

Mrs. W. Burns entertained a number of ladies at the tea hour on Wednesday last week.

The local branch of St. John Ambulance Association will be at home to members and invited guests in the Knights of Pythias hall on Friday evening of this week. Cards and dancing will feature this pleasant event.

The Coleman Taxis hockey team played its first game on Tuesday evening against the Blairmore Taxis team. It was rather one-sided but that was to be expected as the locals have had no opportunity to practice. Just wait until the machine gets going and then you will see a real game. The score was 7 to nil in favor of the Blairmore group.

The rivalry between Edmonton and Calgary has been carried to the point where The Edmonton Journal proudly points to the circumstance that there were 811 deaths in Edmonton last year as compared to only 522 in Calgary.—Medicine Hat News.

## Say It With Flowers

When you require flowers artistically arranged for any occasion, at moderate prices, and of unequalled quality, phone No. 13, THE COLEMAN TRADING CO., LTD., agents for Frache Bros., Ltd., bridge.

Mrs. G. H. Powell, 2nd street, was the hostess at a delightful tea at her home on Tuesday afternoon.

Mr. P. L. Unsworth left on Tuesday's local for Calgary to attend a sitting of the Soldiers' Medical Board on Wednesday.

Owing to the Bonspiel taking place next week, the Masonic whist drive and dance which was to be held next Friday evening has been postponed.

The Tiger-Blood hockey match scheduled for Friday last at the Coleman arena, was postponed on account of soft ice.

Next Sunday at St. Paul's Church (United) is to be missionary Sunday. The great task of the United Church in Canada challenges every true Canadian and Christian citizen and the wider task of the needs of the world calls for deeper interest and greater generosity. Attend St. Paul's on Sunday.

The annual ball of St. John Ambulance Association is announced to take place on Wednesday, March 17th.

## Logical?

Sweet Young Thing—"You say they make paper from those trees? That's a funny looking tree over there."

Lumberman—"Yes, it'll be a lumber tree some day."

Owing to mild weather the Arena was closed to skaters on Friday and Saturday last week and Monday of this week. With the advent of colder weather Sunday, skating was resumed on Tuesday.

Mr. C. C. Brenner, M. A., of Macleod, school inspector, spent several days this week making an inspection of the local schools.

Mr. and Mrs. H. C. McBurney, 31st street, entertained at bridge on Monday evening of this week. The honors were won by Mrs. C. S. Guimette, Mrs. J. O. C. MacDonald, and Mr. D. E. MacLean, Mr. R. G. Powell. Dainty refreshments were served by the hostess, assisted by Mrs. W. L. Rippon and Mrs. D. E. MacLean.

Mr. A. "Sandy" Dewar's many friends will be glad to learn that the injury he sustained to his knee-cap some time ago, is gradually yielding to treatment and if the present progress is maintained he will shortly be able to be about again.

In the report of the High School examiners in last week's Journal the name Ethel Nelson, should have read Ethel Wilson.

The usual success attended the social evening staged by the Elks' Lodge on Tuesday evening. There was a large attendance at both the whist drive and dance and everyone thoroughly enjoyed themselves. The winners at the card table were: Ladies—Mrs. R. Evans and Mrs. G. O. Pattinson. Gentlemen, Mr. N. Whitaker and Mr. Harry W. Clark.

Miss Richards, of Calgary, is the guest of Miss Youll of the local teaching staff.

The members of the Eastern Star Lodge gave a party in honor of Mrs. R. Tennant, at the home of Mr. and Mrs. Roht Evans on Wednesday evening. Mrs. Tennant is leaving Coleman shortly to join her husband at Corbin, Alta.

## Roads Good in The Pass

Where from 9 to 17 feet of snow at this time last year blocked traffic through the Crow's Nest Pass motor route, cars are now passing with little difficulty, according to reports made to Calgary by road officials and motor club representatives. It is further stated that the road from Cranbrook to Coleman is splendid, and that there is a new loose gravel grade from Pincher Creek to Frank. From Coleman to Michel the road is good, with only a little snow, and from Michel to Cranbrook it is also good, with the exception of a few miles east of Cranbrook, where chains are said to be necessary.—Kimberley Press.

## Useful Knowledge

Visitor: "I suppose you know all the ins and outs of this place?"  
Native: "Well, zur, I know all the innit!"

## Magnavox

"I understand you got rid of your loud speaker."  
"Well, not exactly, I'm still paying her alimony."

## Old Enough to Shave?

Mrs. Bing—"Oh, I wish these rec-pes would be more definite."  
Mr. Bing—"What's the difficulty my dear?"  
Mrs. Bing—"This one tells how to use up old potatoes, but it does not say how old the potatoes must be."

## Ready to Get Up

Outside the storm raged. The thunder was deafening, the lightning flashed almost continuously. Presently a bolt struck some part of the house and knocked the owner completely out of bed.  
He rose, rubbed his eyes, yawned and said: "All right, dear, I'll get up."

## Correct

Who was the straightest man of Bible times?  
Ans: Joseph, because the Pharaoh made a ruler out of him.

## Insinuation

Allice—"I paid my fourth visit to the beauty shop today."  
Marie—"Strange you can't seem to get waited on, dear."

## Postponed Spiel to be Held Next Week

Owing to mild weather conditions prevailing during the latter part of last week, the local Curling Club decided to postpone the 15th annual Bonspiel of the Crow's Nest Pass Curling Association until such time as they were assured of cold weather. With the drop in temperature coming on Sunday and continuing all week, it has been decided to call the spiel to start on Monday of next week. All clubs in the district have been notified by wire and a good representation is expected.

Mr. Harry Gate, Jr., met with a serious accident at the McGillivray mine yesterday that may result in the loss of his foot which was badly crushed by a mine car.

Mr. W. Johnston has recently installed several wood working machines in his carpenter shop, and now has one of the best equipped wood shops in this line in The Pass.

## Plenty of Time

Foreman—"Got a nail in me foot, Bill?"  
Bill—"No, gotta nail in me boot."  
"Why don'tcher take it out, then?"  
"Got! In me dinner hour?"

## Behind His Back

Uncle: "Well, you little rascal, how many times have you been whacked at school today?"  
Tommy: "Dunno, uncle. I don't take any notice of what goes on behind my back."

## Uncomplimentary

Anxious English bride (as young husband appears on the piazza)—"Oh, darling, I'm so glad you've come. We heard that some idiot had fallen over the cliff, and I felt sure it was you."

## The Prince to Marry—Again

Plans for the Prince of Wales to make another foreign tour during 1926 have been abandoned, it is announced.  
This was taken by many as confirmation of reports that the engagement of the heir to the throne, and possibly his marriage, to Princess Astrid, of Sweden, will be accomplished within this year.  
His brothers, the Dukes of York and Prince Henry, probably will undertake foreign tours.

## Hunger never kicks because the tablecloth is soiled

Matching for the drinks is one kind of a hall match.

Worry is as useless as it is to tell people not to worry.

Marriage is a lottery in which the spinner doesn't take chances.

The investors do all the paying in many of the paying investments.

If a man ever for's religious it's when he finds himself in a tight place.

Many a man has been known to get a peek of trouble out of a pint flask.

When a man knows that he is a fool he knows more than some people give him credit for.

How some women can even pretend to be proud of their husbands is a mystery to other women.

Poets have been known to make dollars out of lines that ordinary mortals couldn't make sense out of.

## HOUSE FOR SALE

House for sale with hardwood floors. Apply to Paul Barona, Coleman, Alta. 20th

## GOVERNMENT IS SUSTAINED ON AMENDMENT VOTE

Ottawa.—Amid scenes of the wildest excitement the government secured a majority of three on the amendment vote.

Mr. R. H. B. Macdonald, Conservative leader.

Five Progressives voted with the Conservative. The total vote stood: Against, 127; For, 120; majority, against, 7.

As the figures were announced by the clerk, both Liberals and Conservatives sang, cheering frantically, flinging masses of paper in the air in their excitement.

The five Progressives who voted for the Conservative amendment were: Messrs. M. N. Campbell, Mackenzie, Baskin, W. T. Laidlaw, and A. M. Carmichael, Kinsley, Sask.; A. M. Boutilier, Vegreville, Alta.; W. R. Pender, Last Mountain, Sask.

In the whole house of 245 members there were only two votes not cast. These were the votes of Speaker Leith-Jones, and A. D. Chapin, Conservative, Kent, Ont., who are in hospital.

Speaking in the house before the vote was taken, the Conservative amendment, Alfred Speckman, Progressive, Red Deer, announced his intention to vote against the amendment. He was the first Progressive to state formally in the chamber his intention to vote. After outlining his attitude towards the amendment, he added: "I am expressing the view of many in this corner of the chamber who intend to vote as I do."

On the other hand, Mr. Laidlaw, a Progressive from Canmore, Alberta, announced his intention to vote for the Conservative amendment. Mr. Laidlaw thought the bill of the people as expressed in the general election should not be flouted. The party with the largest representation in the house should be called upon to form a government.

With the exception of the five Progressives mentioned all Progressives voted with the government against the amendment. Messrs. A. W. Neill, of Canmore-Alberta, 120, and J. H. Thompson, Lethbridge, and Messrs. J. S. Woodhouse, and J. H. Thompson (Winnipeg), the two Liberal members, also voted with the government.

Following defeat of the Conservative amendment, the house, without a further division, adopted the government motion which Mr. McPherson had sought to amend. This motion is to give precedence to consideration of the address in reply to the speech from the throne.

## Report Chief Engineer

### Drowned At Sea

Officer of City of Vancouver Missing Since Dec. 6

Vancouver, Chief Engineer Hugh Hinkson, of the steamer "City of Vancouver," is believed to have been drowned at sea, according to a report made here on the arrival of the steamer Jan. 9. Hinkson was reported missing on December 6, five days after the City of Vancouver left Seattle, and he is believed to have been drowned or overtaken by one of the huge combers that swished along the vessel's deck in very heavy weather.

## Develop Riding Skill

### Challenge Cup Is Offered For Military Riding Competition

Toronto.—With the object of promoting interest among military men in riding skill, Alfred Rogers, Sr., has donated a challenge cup to be awarded to the best competitor. The competition will be open to officers and ex-officers in all branches of the service.

Uniform must be worn and the only marks to be scored will be for the performance of the mounts.

Contests will be held at the Toronto Hunt, the final in June.

## Women Helping the Blind

Edmonton, Alta.—The Canadian National Institute for the Blind has sent two teachers of the blind stationed in Alberta. These are Miss Fisher, of Edmonton, and Miss McArthur, of Calgary.

Both are blind, but at one time had their sight, a fact which is of immense value to them. They travel over their fields, teaching and advising, and doing an enormous amount of work in bringing a new vision of life to those who are handicapped.

## Would Abolish Tax

Winnipeg.—Abolition of all stamp taxes on commercial documents will be urged upon the Dominion government by the Winnipeg branch of the

## Saskatchewan's Sound Economic Position

### Premier Dunning in Budget Speech Says Financial Conditions Improved

Regina, Sask.—Declaring that Saskatchewan farmers would receive nearly \$100,000,000 more from the sale of their surplus farm products in 1925 than in 1924, Premier Dunning, in his tenth budget speech in the legislature here, stated that general economic conditions in Saskatchewan were better now than they had been at any period since the Great War. At the same time he urged the need for continued care as well as confidence in the future.

The government did not propose to impose any new taxation or increase any existing taxation.

Saskatchewan closed the fiscal year ending April 30, 1925, with a cash deficit of \$166,815, but this was covered many times in money owing to the province under the public revenue tax, the wild lands tax, the old supplementary revenue tax and unpaid recoupled duties aggregating \$1,529,415, he said. These arrears had been reduced by a little over \$200,000 as compared with the previous year.

Mr. Dunning indicated the government was watching the operation of a gasoline tax in other provinces and declared that investigation made by the government showed that a three cent tax of three cents a gallon on gasoline would not bring in more money fees being reduced by more than 45.

## British Mine Survey Nearing Completion

### Chairman of Royal Commission Summarizes Progress to Date

London.—The royal commission which is making a survey of the coal industry entered the final stages of its task when it heard the proposals of the operators, as explained by Lord Williams, president of the national board for the coal mining industry. These proposals were summarized by Sir Herbert Samuel, chairman of the commission, as follows:

The men to work an additional hour without extra remuneration; wages to be reduced in certain districts; the owners to effect a reduction of 10 per cent. on the cost of production; railways to be reduced to 100,000 tons; temporary dismissal of 10,000 men.

## German Chancellor Forms New Cabinet

### Dr. Luther Was Given Mandate By Von Hindenburg

Berlin.—President Von Hindenburg has commissioned Chancellor Luther to form another cabinet. The mandate after both Erich Koch, the Democratic leader, and former Chancellor Brüning of the Centre Party, had informed the president that a "big coalition" government was impossible. When Dr. Luther's cabinet resigned early in December, following the signing of the Locarno treaties, it was announced the president was to leave the choice of his new cabinet to the president. When Dr. Luther's cabinet resigned early in December, following the signing of the Locarno treaties, it was announced the president was to leave the choice of his new cabinet to the president.

## Butter Prices Lower At Coast

Vancouver.—With the arrival here from New Zealand of 8,000 boxes of butter, or approximately 438,000 pounds, prices declined here 2 to 3 cents a pound after having been steady at 45 cents a pound wholesale for several months. Most of the New Zealand butter, it is said, is for local consumption, although some of it will find a market in Eastern Canada.

## Receives New Appointment

London.—Percy Hunter, a journalist and former commissioner of immigration for Australia in London, has been appointed general manager of the Pacific cable board. His salary, according to the Daily Express, will be £2,000 a year.

## Explosion Kills Miners

Wilburton, Okla.—Most of the 105 men working in the Big Horn mine, a well mine, three miles west of here, are believed to have been instantly killed in a terrific explosion that wrecked the main shaft and caved the mine.

## Notes Australian Dias

Melbourne.—Sir Austin Chapman, former Australian minister of health, is dead, aged 61. As postmaster-general from 1910 to 1917, he did much to extend the telephone and telegraph systems of the country.

## Would Wind Up Mine Affairs

Winnipeg.—The compulsory winding up of mining companies in Manitoba, is being demanded by shareholders in London, Eng., according to word received here.

## Case Important To Automobile Dealers

### Supreme Court Must Settle Disputed Point in Contract Sale

Victoria.—Leave to appeal to the Supreme Court of Canada on a matter of importance to Canadian automobile dealers was granted by the British Columbia appeal court here. The point at issue is whether a purchaser of an automobile or any other article purchased on a similar condition of sale is entitled to sue the vendor for any profit he makes on a resale when a car has been surrendered through failure to fulfill the terms of the contract.

22. C. Mayers made the application in the case of Solomon Chan vs. C. C. Motors of Vancouver. The judge in the lower court held that a purchaser who had failed in his contract and surrendered the article purchased, was entitled to sue the vendor for any balance over the contract price secured on a resale. The defendant carried the case to the appeal court and by a majority of one the appeal court upheld decision of the court below.

## A STANDARD FOR LAND VALUES IS PLAN SUGGESTED

Brandon.—The United Farmers of Manitoba will be asked to request the Dominion government to set a standard for land values in the Dominion.

Following the presentation of the report to the work of the council, H. P. Nicholson, Dauphin, Man., asked J. W. Ward, secretary of the council, who presented the report, if the council had any plan on standardization of land values.

Mr. Nicholson drew the attention of the convention to the influx of immigrants expected to result from the new and low schedule of transportation rates from points in the British Isles to Canadian provinces. He warned that if any great numbers of immigrants did arrive, land prices would be likely to rise far above the producing value.

Mr. Ward replied that the Canadian council of agriculture did not have the matter before it in any formal form. He agreed that the matter was one requiring attention and suggested that a resolution be placed before the convention outlining a policy. This subject, he said, is the subject of the report of the western conference of farmers' organizations, and if the policy met with their approval, he thought the Dominion Government, through the council, would take action.

## Russia To Participate

Berlin.—Russia will participate in the preliminary disarmament conference at Geneva, it is learned authoritatively, on condition that Russia-Swiss relations are adjusted meanwhile.

## But Russia-Swiss Relations Must Be Adjusted Meanwhile

London.—Over six hundred British families are waiting to sail to Canada in the Spring.

## British Families Coming

London.—Over six hundred British families are waiting to sail to Canada in the Spring. The Canadian authorities in London confidently anticipate that 300 more British families will be ready to leave for Canada by the middle of June next.

## Want Alberta Coal

Toronto.—Peninsula Voices have been raised in protest against Albert Thomas Foster and his colleagues of the city council. The Mayor was voted at the meeting of local council of women, and arose over the action of the city fathers in buying 20,000 tons of Foxhollow coal for city use.

## Wants Million New Settlers

Homeless Greatest Need of B.C. Says Premier Oliver. Vancouver.—What British Columbia needs is a million new people to live with the industry and thrift possessed by the early pioneers of Ontario, said Premier John Oliver during the course of a speech given at the annual dinner of the Associated Property Owners.

## Will Establish Agricultural Research Fund

Regina.—Establishment of the "Saskatchewan Agricultural Research Foundation," enabled by payment to the province of \$25,000 made on operations of the Canada wheat board, was approved by the legislature on recommendation of the committee on agriculture.

## Wins Wheat Championship

Saskatoon.—Seeger Wheeler, of Rosthern, won the championship in wheat as the farm crops trophy at the provincial seed fair at the university here, while William Darnborough, of Laura, won the oats championship and T. Eaton Cup and incidentally took the Darnborough Cup for sweet clover.

## NO DATE FIXED AS YET FOR THE EMPIRE PARLEY

London.—It is understood that nothing definite has developed yet as to the date of the proposed imperial conference here. The governments of the various dominions have replied to the British Government's inquiry as to what time would suit their representatives—three to come to London to discuss imperial matters with representatives of the imperial government, but for their communications will have to pass through the Home Government and the overseas administrations. Before any further decision can be reached, a suggestion has been made that the conference be held in London.

A suggestion has been made that the conference be held in London. Before any further decision can be reached, a suggestion has been made that the conference be held in London.

## Wants Million New Settlers

Homeless Greatest Need of B.C. Says Premier Oliver. Vancouver.—What British Columbia needs is a million new people to live with the industry and thrift possessed by the early pioneers of Ontario, said Premier John Oliver during the course of a speech given at the annual dinner of the Associated Property Owners.

The "greatest need of this province is homeless and homeless." Industry had increased sixfold in British Columbia during the last ten years, he continued. There was no place on the face of the earth where 550,000 people produced as great an amount of wealth as in British Columbia.

It would be difficult to convince him that taxation was keeping British Columbia back when people were paying into the coffers of the province a million a month for lumber that caused them more harm than good.

## Start Campaign For Fair Trading Policy

### Retail Merchants Ask Guarantee of Fairness From Government

Toronto.—A campaign to establish a fair trading policy between the manufacturer, wholesaler and retailer will be organized by the latter.

The campaign is being conducted by the association throughout Canada. The campaign will be directed to force the manufacturer, wholesaler and retailer to take action along the same lines for them.

## Will Establish Agricultural Research Fund

Regina.—Establishment of the "Saskatchewan Agricultural Research Foundation," enabled by payment to the province of \$25,000 made on operations of the Canada wheat board, was approved by the legislature on recommendation of the committee on agriculture.

## Urge Federal Aid For Coal Shipments

### Alberta Coal Operators Would Send Half Million Tons to Ontario

Calgary.—A resolution urging the Federal Government to assist with the immediate shipment of half a million tons of coal to the Ontario market and the recommendation that the Alberta Government appoint a coal council for the province to assist in expanding the existing coal market featured a general meeting of Alberta coal operators called by the convention of the Edmonton board of trade which was held here.

Toronto.—H. Charles McKee, Ontario minister of mines, stated that word had been received that the 7,500 tons of Alberta coal forming the balance of the 25,000 tons summer shipment at once. It was expected it will all be shipped by the first week in March. The mining department had received no further communication as to sending Alberta coal in excess of the quantity asked to be delivered.

## Want Four-Day Fair

Prince Albert Delegates to Prefect Request at Regina Convention. Prince Albert, Sask.—If the arguments of the representatives of the Prince Albert Agricultural Society, who are attending the annual convention of the Western Canada Fair Association in Regina on February 2 and 3 are heard and approved, this city will return to a four-day exhibition this year instead of three days.

This was the unanimous decision of the directors of the society at their meeting. The two delegates named to the Regina convention, C. G. Gamble and J. P. Currier, were instructed to ask for fair dates immediately following those of Regina so that the local society would be in a position to secure good exhibits from the various government departments.

## Marketing Agreement Becomes Operative

### Agreement Entered Into Between Canadian Millers and Wheat Producers

Winnipeg.—The pact struck between Canadian millers and the Canadian Cooperative Wheat Producers for the marketing of Canada's wheat crop will become operative within a week. P. E. Smith, sales manager of the producers' agency has announced. Only part of this year's crop will be handled through this medium, he indicated. An agreement of mutual understanding to both interests was entered into as a result of negotiations which have been progressing several months.

## How Progressives Voted

List Showing Who Voted For and Against Conservative Amendments.

For the amendments.—Messrs. Campbell, Mackenzie, Lucas, Carmichael, Kinsley, Sask.; Boutilier, Vegreville, Alta.; Fausler, Last Mountain, Sask.

Against the amendments.—Robert Forke, Progressive leader, Brandon; Miss Agnes MacPhail, S. E. Grey, Ont.; Brown, Leduc, Man.; Garland, Bow River, Alta.; Millar, Q'Appelle, Sask.; Northrup, H. G. Jones, Lethbridge, Alta.; Evans, Rosthern, Sask.; Bird, Nelson, Man.; Spencer, Battle River, Alta.; Gardiner, Acadia, Alta.; Ward, Dauphin, Man.; Speakman, Red Deer, Alta.; Beaudin, Froese, Man.; Stevenson, Souris, Man.; Love, Macdonald, Man.; Coote, Macleod, Alta.; Johnston, Long Lake, Sask.; Kennedy, Peace River, Alta.

## Will Establish Agricultural Research Fund

Regina.—Establishment of the "Saskatchewan Agricultural Research Foundation," enabled by payment to the province of \$25,000 made on operations of the Canada wheat board, was approved by the legislature on recommendation of the committee on agriculture.

## ASK LEGAL RIGHT FOR WHEAT POOL TO FIX DAMAGES

Regina.—Wherein giving the Saskatchewan Wheat Pool a legal right to fix as liquidated damages specific sums to be paid by its members upon a breach of the pool marketing contract, is contained in a bill to amend the Saskatchewan Wheat Pool Act of incorporation tabled in the legislature. The bill also provides that the pool shall be entitled to an injunction against a member breaking the contract.

The provisions of the bill are to be made retroactive except in the case of actions pending.

The amendments are embodied in three clauses as follows:

"The said corporation may, by its articles of association, or by a marketing agreement entered into with its members or shareholders, fix as liquidated damages specific sums to be paid by its members or shareholders to the corporation upon breach of any provision of the marketing agreement regarding the sale or delivery or withholding of grain, and any sums so fixed as liquidated damages shall be valid and enforceable as such in the courts of Saskatchewan, and shall not be deemed a penalty or in the nature of a penalty."

"In the event of a breach by any member or shareholder of any such marketing agreement, as to the delivery or marketing of any grain otherwise than through the said corporation, the corporation shall be entitled to an injunction to prevent further breaches thereof, and to a decree of specific performance of the said marketing agreement."

"The provisions of this act shall be deemed always to have been included in the said chapter 66 of the statutes of 1921, being an act to incorporate the Saskatchewan Cooperative Wheat Producers' Association."

"Provided that nothing herein shall affect the rights of parties to any action, or proceeding, pending the date when this act comes into force."

## Marketing Agreement Becomes Operative

Agreement Entered Into Between Canadian Millers and Wheat Producers.

## REDUCING MINE FATALITY RATE.

British Columbia has achieved a world's record of which it is rightly proud. This relates to the low proportion of mine fatalities within the province in 1925. The death rate per million tons of coal mined was 2.4 per cent. This compares with the British figure of 3.85; that of the United States, 3.92; France, 4.94; Belgium, 5.78; Prussia, 7.04.

British Columbia may well take pride in the degree of caution and vigilance that is represented in its low mine fatality record. It indicates hearty co-operation between operators and miners in preventing loss of life. During 1925 there were many distressing mine accidents in the United States. In fact, hardly a week passed without serious loss of life in mine pits of the republic. Mining is something of a dangerous pursuit at best, and companies engaged therein should always be mindful of the importance of the human factor. That British Columbia has been able to keep its fatality rate so low indicates that its operators are alert to their responsibility in this respect.

## WHO PAYS FOR ADVERTISING?

There is an old, and, praises be, a rapidly disappearing notion among the general public that advertised products are higher priced than those whose desirable qualities are never thrust upon them from the printed page.

"Who pays for advertising?" was an oft-repeated question in the days

when the Baloney Barons and Ketchup Kings were driven to their offices behind a high-stepping train of haves and sureties, the general public throughout when they purchased a fifteen-cent can of advertised soup they received only ten cents worth of food value and five cents' worth of advertising—for how else could the advertiser afford to pay for so much costly space? Increased production, lower manufacturing and sales cost per unit were unknown terms to them.

No business has flourished more during the last quarter century than that of advertising. A comparison of almost any kind of publication today with those of a few years ago will show an enormous increase in the amount of advertising carried. Records show a similar growth in direct mail advertising.

Could any enterprise, unless based on the soundest of business principles, withstand the test over a long period of years and experience the growth which advertising has enjoyed?

It is indeed surprising, when facts are considered, that the small number of anti-advertising people still demand, "Who pays for advertising?" when it is so obviously the non-advertising competitors of advertised products who eventually sign the checks.

## THE PENALTY OF WRONG.

Bill Lawrence, the "notorious badman from Oklahoma," who was hanged in Arizona after conviction for murder, strangled a guitar and sang a Spanish song during his last moments in the death cell. Although a remarkable example of complacency, this, no doubt, was but a self-imposed antidote to the condemned man's mental suffering.

It is said that the moment a convicted man enters the prison door his spirit is broken and he is ten years older than he was the moment before. This may be true in some cases and not true in others. To a man or woman who starts out in life with honest purposes and who sanely commits a wrongful and criminal act, undoubtedly the real suffering and remorse takes effect long before he or she has reached the prison doors. The consciousness of guilt is the greater penalty.

## CO-ORDINATION OF COMMUNITY WORK.

The program of the modern community depends upon co-ordination as well as upon co-operation. In this age of organization, where the individual is merged into the mass, there is a marked difference between one man working alone and his strength with relation to his organized identity. Co-ordination is merely the harmonious action of forces working jointly to accomplish certain ends.

## NOBODY'S CHILD.

What word stirs the human emotions more than orphan? What sorrows are unfolded in the story that brings about this pitiable condition of childhood? What future can be held out for the parentless child?

First of all, it is a child—somebody's baby. Now it is nobody's baby. The world is parent to the orphan; and everybody's child is nobody's child. To be merely sorry for an orphan is not enough. Until sympathy and pity stimulate to action and constructive aid, the orphan is liable to be hungry, destitute, lonely and unhappy. Nothing that mortal man can do or no amount that he can give will fully replace the blessings of natural parenthood. The government may help, the province and district may help, but until all HUMANITY helps by individual and personal sacrifice there is not the full approach to duty that is expected of a kindhearted world.

## Quebec Winter Sports Off to Good Start

(1) From left to right—W. B. Thompson, McGill; R. S. Whitney, Yale; C. Beaulieu, Loyola, Montreal; J. Beaulieu, Loyola, Montreal; R. Whitney, Yale; J. Porter, University of Montreal; P. Rousseau, University of Montreal; R. Plante, Loyola, Quebec; G. Turb, Loyola, Quebec; S. Andette, Ottawa. (2) Isabel Courrier in action. (3) W. B. Thompson making his 95-foot jump. (4) W. B. Thompson, at McGill University, Montreal.

During jumps into space were the opening features of the most brilliant winter season when the International Intercollegiate Ski Jumping teams lined up for the famous trophy on December 30, at the Ancient Capital. W. B. Thompson, of McGill University, secured the longest jump of 95 feet, but J. Beaulieu, of Loyola College, Montreal, was awarded the maximum number of points because of his fine form, although he jumped only 91 feet.

Among the university teams taking part in the contest were McGill, Loyola, Ottawa, Montreal, Yale, and Laval. Although it was very cold, large crowds turned out to see the contest, three grand stands on the Dufferin Terrace being packed.

Isabel Courrier, nineteen-year-old miss who holds the world's women championship, treated the spectators to a daring exhibition, while Irvin Nelsen, Canadian Champion, set a new record for Quebec by jumping 101 feet. The International Ski Trophy was awarded to the triumphant Loyola College team. Two nights later the Terrace was to be seen in sparks and flames. Parties from the New England States arrived in force

to take part in the New Year celebrations, and a fireworks exhibition was staged soon after midnight. Numerous skiers were arranged and the winter carnival was at its height and ready to go strong for the rest of the winter from the first week in January.

Another highly interesting event at Quebec, on December 30, was the International cross-country ski race won by W. B. Thompson, of McGill University. The course is over a difficult five-mile stretch. Tache, of Laval University, Quebec, was second in the cross-country race, and J. Beaulieu, of Loyola, Montreal, was third.

The Yale University contestants were left far behind in both these jumps and races, by their Canadian opponents. H. Whitney and R. S. Whitney, of Yale, were seventh and eighth, respectively, in the cross-country race. They had the very same position in the jumping contest.

Heavily-laden sleighs are to be seen going slowly through the old city at all hours of the day and night. Visitors seemingly never tire of the wonders of the quaint French-Canadian capital.

# Garnet Wheat Has Created Keen Interest With Farmers Throughout Western Canada

The satisfactory results of tests to which Garnet wheat has been subjected has aroused keen interest throughout Western Canada. Garnet Ottawa 623 is the latest variety of wheat developed at the central experimental farm at Ottawa.

According to reports, prairie farmers, anxious to try out the new wheat, are flooding the government experimental stations serving their respective districts with applications for test seed. Although preliminary milling and baking tests have been made, more thorough tests will be conducted before the test is released for general distribution. A limited quantity of seed has been sent to a number of the experimental stations, which, however, has failed to meet the demand.

Giving details of the development of Garnet wheat, G. E. De Long, B.S.A., assistant superintendent of the Dominion experimental farm, Lacombe, Alta., states that the new wheat has been grown in Alberta since 1919. During that period, he says, it required an average of 113 days to mature, while the average for Marquis wheat was 123 days. In further comparing these two varieties, Marquis gave an average yield of 46 bushels 17 pounds an acre, against 45 bushels 17 pounds an acre for Garnet Ottawa 623.

Continuing, Mr. De Long says: "Garnet Ottawa is somewhat similar to Baby Ottawa 623, in length and strength of straw. Garnet straw also shows a tendency to develop the ruby coloration, distinctive of Ruby. The shape of its head gives the standing crop the appearance of being a very heavy yielder.

"Garnet appears to be about midway between Marquis and Ruby in tendency to shatter if allowed to become too mature before harvesting.

"The experimental station at Lacombe has never had Garnet Ottawa 623 subjected to frost during the six years it has been grown. For this reason no definite information is available concerning the frost resistance of this variety as compared with the others."

In the opinion of Mr. De Long, Garnet Ottawa has a place in Central Alberta and other districts where Marquis is subject to injury from early fall frosts. Whether advancing the harvest one week in districts where Marquis is not mature at the time of early frost would justify growing Garnet in preference to Marquis, has not been demonstrated.

"Those farming in such districts should note in mind that Marquis is accepted as the standard milling wheat throughout Canada and the United States," Mr. De Long advises. "They should also remember that Garnet is a new variety and has yet to prove its worth under varying conditions to the same extent Marquis has."

"There is little doubt Garnet Ottawa 623 will replace Ruby Ottawa 623. These two wheat mature at approximately the same time. Marquis will outyield Ruby by several bushels per acre and does not shatter to the same extent."

## Finding Farm Loans Costly

Rural Credits Act Has Cost Montreal \$500,000 Since Its Enactment

Since enactment of the provincial Rural Credits Act, Manitoba has suffered a loss of more than \$500,000, according to a report submitted to Premier J. Bracken.

The report, which was prepared by John Wylie, superintendent of rural credits in the province, indicates that the outstanding principal indebtedness owing the province by the 74 rural credit societies was reduced during the eight months fiscal year by about \$350,000.

The balance outstanding was shown at \$2,326,351, with an estimated interest unpaid at \$176,674.

## Remote Police Post

The world's most northerly post, also the most remote, is a barren habitation, it is to be constructed next year for the Royal Canadian Mounted Police at the far end of Ellesmere island. Building materials and two years' supplies have been cached with in easy freightage distance of the point.

## To Bring Many Immigrants

Four thousand immigrants will be brought to Canada during 1926 by the Lutheran immigration board of Canada, according to the programme unanimously adopted by the western branch of the organization which met in annual session at Saskatoon. The war developed in response to its advertising presentation of the play. It was last given in the summer of 1925. Subsequently the Passion players visited the United States.

## Muskrats Damaging Boat

A family of muskrats snugly ensconced in a warm nest under the quarter deck of John Sheehan's fishing boat which is moored at Port Arthur, is causing much damage to the boat and its contents.

## Muskrats Damaging Boat

A family of muskrats snugly ensconced in a warm nest under the quarter deck of John Sheehan's fishing boat which is moored at Port Arthur, is causing much damage to the boat and its contents.

## Purchase B.C. Timber

British Railways Place Large Order For Canadian Products  
British Columbia has received an order from one of the greatest of the railway groups for 25,000,000 feet of Douglas fir railroad ties. It is stated in official circles. It is pointed out in the same circles that this is more than British Columbia's total export to Britain in 1925.

"This breaks the long tradition for more than a century," one authority says, "the British railways have declared their intention of giving preference to Canadian timber, provided that the price and other conditions are equal. Also, for the first time, a great British railway group has inserted in its conditions of tender that preference is to be given to Canadian timber."

The British Columbia timber industry will be enabled to meet any difficulty with regard to price with the help of the low freight rates granted the special service operated by the Canadian Government Merchant Marine via the Panama Canal, the same authority states.

The decision of the railway group in question to place the contract for railroad ties in British Columbia follows the recent decision of London and North Eastern Railway Company to purchase only British steel rails. The British admiralty also has decided to use Douglas fir for the decks and bulkheads of new battleships.

The British board of trade has agreed to use Douglas fir and silver pine in construction of both rowing and motor lifeboats.

## Rapidly Forging Ahead

Veteran Shipping Man Foresees Pacific Westing Trade Supremacy From Atlantic

Like his illustrious father, Captain Robert Dollar, veteran San Francisco shipping man who started his career in Ontario logging camp, A. R. Dollar, president of the Canadian board of trade, foresees the early advent of the day when the Pacific will wrest trade supremacy from the Atlantic.

"During the past decade, the total volume of foreign trade of all the principal countries bordering upon the Pacific has increased enormously, and this process is still going on," says Mr. Dollar. "Figures covering the trade expansion of the United States, Japan and Canada, particularly illustrate that the Pacific Ocean is rapidly forging ahead as an integral part of the world's commercial routes, and today it is a definite and potent factor in world commerce."

"When it is realized that there are no shipping borders upon the Pacific that are practically undeveloped from a trade standpoint, one may gain some faint conception of the opportunities awaiting progressive business men of the future in this field. When you add to that the fact that the Panama Canal has opened the Pacific coast to the markets of Europe it is apparent that Pacific commerce has all the advantages of a world situation. On the Pacific coast there is a population of 15,000,000 to be served, against a population of 225,000,000 on the Atlantic."

## Proposed Dairy Meiger

Reported That a Company May Be Formed For This Purpose

Formation of a holding company, capitalized at around \$20,000,000, merging dairy companies throughout Canada, is mooted, according to The Ottawa Citizen, which reports that the shareholders of the Producers' Dairy Company of Ottawa likely will be called upon to vote on entering into the combine. Under the suggested scheme a holding company for many of the dairies of Canada extending from coast to coast would be created. The chief source of capital is reported to be in Quebec, Montreal, Toronto and Winnipeg.

If the proposed venture goes through, which is considered likely, considerably more than the distribution of dairy or farm products will be undertaken. It will include such things as manufacture of glass bottles, wooden cases used in the distribution of milk in bottles and perhaps one or more industries kindred to the dairy trade.

## Whaling Industry in B.C.

Some 10,500 barrels of oil were put up by the Consolidated Whaling Company, of Victoria, as a result of operations of four stations from May to October last year. The whaling is used for the manufacture of toilet soap, tanning, tempering steel, fruit and other uses, while blood and bone-meal are also used for the culture of flowers and fruits.

He: "Would you accept a pet monkey?"  
She: "Oh, I would have to ask. This is so sudden!"

## Saskatchewan Butter Production

Total Value of Dairy Products For Province in 1925 Was \$20,945,648  
Creamery butter production in Saskatchewan during 1925 showed an increase of more than 2,500,000 pounds as compared with the production in 1924, while dairy products showed an increase of more than \$1,500,000 in comparison with 1924.

Reports received at the dairy branch of the provincial department of agriculture show the total value of dairy products in the province during 1925 was \$20,945,648.

During the year 15,450,000 pounds of cream butter were manufactured in Saskatchewan compared with 12,585,902 in 1924, an increase of 2,264,098 pounds. The total 1925 output is more than double the production of 1921.

"The increased production is attributed principally to an increased interest in dairying, coupled with the use of better cows and improved feeding, and the fact that the dairy industry is being developed in the prairie provinces, states P. C. Kidd, provincial dairy commissioner.

"Cheese-making also, while still a very small branch of the dairy industry, has seen a decided step forward and promises soon to become an important factor. During 1925 the output of cheese was 223,137 pounds as compared with 165,000 pounds during 1924, and the value of cheese made has increased by \$17,158.

"Favorable conditions for the consumption of ice cream during the summer season caused a net increase of approximately 40,000 gallons in the quantity manufactured and sold."

"One feature during the past season has been the increase in butter exported from Saskatchewan to the British markets. During the year more than 15,000,000 pounds of cream butter were graded for export under the Dominion of Canada grading regulations. This represents a quantity more than double that graded under these regulations last year. It is difficult to give the ultimate destination of this butter, but it is safe to say that most of it found its way to the British market, where it enjoyed a strong demand throughout the season due to dependable quality in each grade."

## Feed For Livestock

By-Products of Raymond Sugar Factory to Be Put to Use

By-products of the \$12,000,000 beet sugar factory at Raymond, Alberta, will make that district the great feed-growing center of Canada, it is declared. The by-products include molasses and molasses with alfalfa and grain make the ideal feeding combination for cattle. It is stated. Negotiations are now in progress between the sugar company and a big packing concern for the experimental feeding of a large bunch of steers near the factory. The total output of beets at the Raymond factory this fall was about 45,000 tons, which will be increased materially next year. There will be about 2,000 tons of sugar and a large quantity of pulp available this winter for stockmen.

## Soldier Settlers Doing Well

Prosperous Conditions in Farming Communities in Alberta

A reasonable indication of the prosperous condition of many of the farming communities in Alberta is revealed by the fact that at the land settlement board at Calgary, payments from soldier settlers are coming in at the rate of from four thousand to five thousand dollars a day. This is regarded as most encouraging, and shows that the men are doing reasonably well. One man came in and paid up his indebtedness in full, turning in to the board the sum of \$2,000.

## Never Had a Crop Failure

Horace Johnson, an old-timer of Alberta, has farmed for more than twenty years in the Champion district, and according to the figures he has kept, has averaged a wheat yield of twenty-eight bushels to the acre during that entire period. He has never experienced a crop failure though he has suffered similar to other farmers from natural causes.

## Ireland-Unwilling Air Service

The Irish papers are talking of a possible trans-Atlantic air service between Galway and St. John, Newfoundland, a distance of 1,700 miles. The whole question of aviation in the Free States and its development on a civil basis is to be discussed at a conference this month.

## Interest in Western Canadian Farms

There is further evidence of a re-awakening of interest in Western Canadian farm lands on the part of United States citizens. The Edmonton board has received four hundred inquiries in response to its advertising of Central and Northern Alberta.

There is no redress for the man who has but one suit of clothes.

# Western Wheat Straw May Soon Be Used For The Manufacture Of Paper

## Sweet Clover Benefits Land

Crop Every Five Years Followed by Summerfallow is Best Plan

The sweet clover benefits the land in at least three ways. First, it adds root fibre to the soil as the root system is quite large and decays rapidly after the land is plowed. Next, it renders the soil more permeable to moisture, the decaying roots are of a spongy nature and, as they extend down at least two feet, there is a tendency to permit the soil to absorb water more rapidly than it would otherwise do. I think that this feature of soil improvement through sweet clover is one of very great importance in this province. Plowing the sweet clover works in very close association with nodulating bacteria. It provides these nodules or little bunches on its roots for the purpose of housing the nitrogen gathering bacteria.

In order to get the most benefit from sweet clover a system of crop rotation should be planned so that the sweet clover occurs on the land once in five or six years so that summerfallow follows the sweet clover. This summerfallowing after sweet clover is quite important as it permits time for the roots to decay and for the ground to soak up moisture and also gives one a chance to kill out any stray plants which may survive. These stray plants of sweet clover are somewhat objectionable when growing in a crop of grain.

Some farmers have attempted to use sweet clover as a summerfallow substitute, but I think it is better to plan to summerfallow a year after the sweet clover. The only way that sweet clover can be used as a summerfallow substitute is to plow the crop under about the 10th of June before it gets too high. If the plowing is delayed the sweet clover grows very rapidly so that there is too great a mass of material plowed into the field. This causes the soil to dry out and delays the decay of the sweet clover itself and the result is a poor crop next year.—Professor Manley Champlin.

## Canada's Mineral Production

One of the Greatest Factors in Canada's Industrial Life

Great progress was made in Canada's mineral industry during 1925. Metal mining experienced a boom which carried production in this field far above all previous records. In a statement issued from the Dominion bureau of statistics the total value of Canada's mineral output in 1925 is estimated at \$228,440,000, an increase of \$18,857,000 above the total of \$209,583,000 for 1924, and more than the previous record of \$227,859,685 attained in 1920 when metal prices were approximately 35 per cent. higher than in the year just closed. Among the metals, considerable advances in the production of gold, lead and silver were most outstanding; improvement in outputs marked the totals for nickel, copper and cobalt; silver showed little change; there was an increase in the tonnage of iron ore exported from stocks at the mines.

Mining, now third in rank among Canada's primary industries, contributed extensively to the wealth and prosperity of the Dominion. Large tonnages of freight move from and to the mines; many subsidiary industries depend upon the mining industry for their prosperity. Canada's progress in the production of mineral wealth has been notably remarkable in recent years and the developments in established fields, the discovery of new mineral areas and finally the surpassing of previous records stamp the mineral industry as one of the great factors in Canada's industrial and commercial life.

Noted Woman Surgeon Dead

Dame Louisa Bradneth Aldrich-Blake of London, pioneer among women surgeons, is dead. She carried on her duties almost to the last, despite illness suffering for more than a year.

Dame Aldrich-Blake was dean of the London School of Medicine for Women, senior surgeon at the Elizabeth Garrett Anderson Hospital, consulting surgeon at the Royal Free Hospital, a fellow of the Royal Society of Medicine.

## Overseasmen's Passion Play

Overseasmen's peasant players met will present the Passion Play in the summer of 1927, instead of 1930, as they originally planned. The war interrupted the regular presentation of the play. It was last given in the summer of 1925. Subsequently the Passion players visited the United States.

That the straw annually burned on the western prairies to the extent of millions of tons will soon become of the utmost value as the raw product from which paper is manufactured seems now almost an accomplished fact.

For several months experiments have been conducted both on behalf of private individuals and also on behalf of provincial governments to ascertain the practicability of making paper from straw. It has been demonstrated beyond a doubt that almost every kind of paper can be manufactured from straw, and negotiations are under way both in the provinces of Alberta and in Manitoba looking to the utilization of this material.

More than one process has been evolved, said to be satisfactory, and experiments dealing with straw not only ruled on the prairies have been successfully carried out. The process, which has been the subject of investigation by the Alberta Government, is known as the Bache-Wilg process.

In a paper bulletin issued by the Alberta Government it is stated investigations were made into all known experimental processes for the manufacture of pulp from straw, and finally about two years ago the government made arrangements for laboratory tests of the Bache-Wilg process in the pulp and paper division of the forest products laboratories, Montreal, under the joint supervision of Dr. Parks Campbell, representative of the division, and John Bache-Wilg, who was co-inventor with his father in the process.

The government has studied carefully the results of these tests, and the trade commissioner has spent considerable time in the laboratory getting information at first hand.

Carl Bache-Wilg, senior, was connected with the first wood pulp and paper mills in Norway, built by his father. He owned the second wood mill constructed in Norway and was long identified as an expert with regard to the best wood pulp and paper mills of the United States and Canada, having been employed in an expert capacity to increase the efficiency of the obtaining of higher yields and lowering costs of production.

In 1908 Mr. Bache-Wilg recommended his experiments with straw pulp in his laboratory in the United States. He continued his experiments until he had found that by his process he could very materially increase the cellulose yield from wheat and other cereal straw.

"My analysis of straw gives the cellulose as 48 per cent.; 'Hewes' gives the cellulose content of straw as 51 per cent., while a German analysis gives the cellulose in straw as 49.17 per cent. But Mr. Bache-Wilg obtained as high as 75 per cent. of unbleached fibre from wheat straw, but found that the commercial yields give the following results:

Wheat straw, 40 to 45 per cent. commercial cellulose.  
Corn stalks, 40 to 45 per cent. commercial cellulose.

Yield straw, 25 to 30 per cent. commercial cellulose.

The Bache-Wilg process does not involve any radical departure from standard sulphite practice, which gives it the advantage of being able to utilize present-day standard wood pulp equipment in the manufacture of straw pulp. At the same time it requires very much less power than is necessary in the preparation of wood pulp for the reason that the marking, chipping and grinding processes are eliminated.

Every variety of paper is capable of manufacture from straw pulp, and the semi-commercial tests have demonstrated that the quality is fully equal to that produced from wood pulp. In fact, in the case of newspaper special attention was paid to the manufacture of wrapping paper, cheating paper, ham and bottle wrappers and carton boards, for all of which there is a ready market in Western Canada. There was developed also under the process an insulating board having a distinct advantage over anything at present on the market in that it is surfaced and can be used as a wall board; it is also both water and fire resisting. The material has met with the enthusiastic approval of architects and builders who have had the opportunity of seeing it.

## Muskrats Damaging Boat

A family of muskrats snugly ensconced in a warm nest under the quarter deck of John Sheehan's fishing boat which is moored at Port Arthur, is causing much damage to the boat and its contents.
